Tarutung, Sumatera Utara

Fresh graduate in Information Systems with a strong interest in Product Analysis, Business Analysis, and data-driven decision making. Experienced in analyzing user requirements, evaluating business processes, designing system workflows, and transforming data into actionable insights through SQL and Business Intelligence tools. Passionate about building user-centered digital products by bridging business objectives with technical solutions.

Education

Institute Technology Del - Laguboti, Sumatera Utara

Bachelor of Information Systems | 2022 – 2026

GPA: 3.20/4.00

Work Experiences

Product Analyst Intern – Cilandak, Jakarta Selatan

Jun 2025 – Aug 2025

- Analyzed user requirements and translated them into structured system and product flows
- Evaluated system usability and identified areas for improvement
- Collaborated with developers to ensure alignment between business needs and technical implementation
- Proposed system enhancements based on user behavior and logical analysis

Institute Technology Del - Laguboti, Sumatera Utara

Aug 2024 - Juni 2025

Computer Network Teaching Assistant

- Assisted students in understanding technical concepts using structured explanations
- Evaluated lab work and reports for clarity and accuracy
- Documented procedures and findings in a clear and systematic manner
- Strengthened written communication and analytical thinking skills

Projects

Database Project

Aug 2023 - Dec 2023

Product Manager

Tiket.com Database System Design

Tools: MySQL, PostgreSQL, SQL Server, MySQL Workbench, SQL, Git, GitHub, Trello

- Designed Entity Relationship Diagrams (ERD) and relational database schema for ticketing system features
- Developed SQL queries to support ticket search, booking, and transaction processes
- Structured database tables and relationships to ensure efficient data storage and retrieval
- Collaborated with team members to align database design with system requirements

Proyek Data Warehouse & Business Intelligence

Jan 2025 - Jul 2025

Product Manager

Designing a Data Mart and Business Intelligence Dashboard for Analyzing IT Del's 2023–2024 Student Admissions

Tools: PostgreSQL, Tableau, Pentaho, ETL, Excel, GitHub

- Designed a star-schema data mart to analyze student admission data
- Developed ETL pipelines for extracting, transforming, and loading admission datasets
- Built interactive Tableau dashboards to visualize demographic trends and insights

Organisational Experience

Information Systems Student Association - Institute Technology Del

Aug 2023 – Nov 2024

- Actively contribute to the Spiritual Division of the Information Systems Student Association as a member, organize and participate in activities that foster spiritual growth and community values.

Skills & Certifications

Technical Skills:

- **Skills:** Product Analysis • Business Analysis • Requirement Gathering • SQL • Data Analysis • Data Modeling • ETL • Data Warehouse • Tableau • Microsoft Excel • PostgreSQL • MySQL • Jira • Trello • Git • GitHub • Postman • HTML • CSS • JavaScript • PHP

Soft Skills :

Analytical Thinking • Problem Solving • Critical Thinking • Communication • Teamwork • Time Management • Adaptability

Language:

- English

Certifications & Training:

Associate Data Scientist (Vocational School Graduate Academy)

Digital Talent Scholarship (DTS) | October 2025

- Completed intensive training in data science, covering data preprocessing, exploratory data analysis, machine learning fundamentals, and data visualization.
- Developed practical skills in analyzing datasets and generating insights to support data-driven decision-making.
- Strengthened analytical thinking and problem-solving skills through hands-on exercises and real-world case studies.
